

Nutella Strawberries from She Makes and Bakes

Prep time 25 minutes

Pint of strawberries, rinsed

1/2 cup Nutella

Pat the strawberries dry and cut off the leaves/stem. This will give the strawberry a flat surface to sit on. From the top, cut the berries in half but only cut about three-quarters of the length down.

Fill a pastry bag fitted with a [flat](#) tip with the Nutella. Gently open the strawberry from the top, place your pastry bag inside it (about half-way down), and fill the strawberry with 1/2-1 teaspoon of Nutella while moving the bag from left to right so the filling comes out of the cuts. You can add more filling if you'd like. Repeat with the remaining strawberries.
